### Dependable operation and exceptional cleaning performance with the 7400

- Just-scrubbed floors left immediately clean, dry, and safe for traffic with **FaST®**.
- The 7400 rider scrubber is a built-to-last machine construction with industrial-strength components.
- Reduce training time and increase productivity with intuitive one-button controls and low-maintenance design of the 7400.

### Key reliability and performance features of the Tennant 7400 rider scrubber

- No-tool squeegee blade changes for simple maintenance.
- Single-piece, T-beam frame and wrap-around reinforced bumpers.
- Front wheel steering for safer scrubbing operation.
- Counter-rotating cylindrical brushes sweep light debris then scrub.

### Key available features

- Optional side brush or power wand and squeegee increases productivity.
- Positive Drain Control for quick and easy tank empties.
- Protect operators with a tested and certified overhead guard.
